

Hanut GrandView KVM Over IP switches

High Performance KVM Over IP switches

Hanut GrandView KVM Over IP switches

Key features and benefits

- ▶ KVM over IP switch from Hanut is next generation of KVM switch. Using Hanut India GrandView KVM over IP switch one can securely access multiple servers from virtually anywhere – onsite and off-site over LAN and Internet.
- ▶ Hanut India GrandView KVM over IP switches include a **dual port console (serial) server** – allowing customers to access and control 2 additional servers or devices with RS 232 interface i.e. SUN servers, routers, switches, NAS, Firewall appliances, ...
- ▶ The KVM Over IP switches also have **dual Ethernet 10/100 ports** which can be used for network redundancy or in DMZ / LAN configuration.
- ▶ Hanut India GrandView KVM over IP switches have built-in L2TP/IPSEC **VPN** providing the highest level of data security available in the open market. Hardware based encryption is compatible with most standard VPN clients.
- ▶ The KVM Over IP switch is built to efficiently utilize bandwidth and offer high quality remote KVM interface. Replicom's proprietary algorithms and hardware based video processing and compression are used in Hanut India KVM Over IP switches.
- ▶ Hanut India GrandView KVM over IP switches support heterogeneous server configurations. The intelligent KVM over IP switch keeps track of video and mouse acceleration parameters for all connected servers.
- ▶ The KVM Over IP switch supports high resolution up to 1600 × 1200 @85 Hz and is VGA, SVGA, XGA, SXGA, UXGA compatible.
- ▶ Hanut India GrandView KVM over IP switches are available in 4, 8 and 16 port 19" rack mountable models.

▶ **Hanut India GrandView KVM over IP switches are one of the easiest to install and use KVM over IP switches.**

- * No proprietary software installation is required on host servers nor on remote management PC.
- * Web based user interface and user friendly On Screen Display (OSD) server selection menu
- * The KVM over IP switch is totally configurable and up gradable over LAN / Internet.

▶ Using KBPower™ and KBPower-IPMI™ with Hanut India GrandView KVM Over IP switches customers can remotely reboot (reset power) servers and/or connected devices. Other Remote Reboot equipment can also be used with the GrandView KVM Over IP switches.

▶ Hanut India GrandView KVM over IP switch is composed of Hanut BigView PS2 kvm switch plus K-One™ KVM over IP enabler from Replicom Israel.

Select Hanut India GrandView KVM over IP switches for a high quality KVM Over IP solution.
